

# CTERA Virtual Edge Filer (Gateway) Configurations

The following table outlines the available virtual gateway licenses and configurations.

License	Maximum Storage	RAM	vCPUs	Maximum Users*
EV16	16TB	8GB	4	1000
EV32	32TB	16GB	8	2000
EV64	64TB	32GB	16	3000
EV128	128TB	64GB	32	5000

\* The number of clients mounting a share on the gateway, assuming less users are reading and writing to the gateway at a given point in time. The number of concurrent users will be less than this maximum figure.
